SUMMARY

Highly enthusiastic and motivated Third-year Computer Science student with a strong foundation in programming, problem-solving, technical design, and collaborating in team-oriented environments and further keen Interested for continuous learning in Web Development, Cyber Security and Artificial intelligence for future development. Eager to apply theoretical knowledge in practical environments and contribute to innovative technology solutions. Seeking internship opportunities to further enhance skills and gain real-world experience, while continuing to grow professionally and make meaningful contributions.

SKILLS

- **Programming Languages:** HTML, CSS , PHP, Python, Java, JavaScript (Basic)
- **Backend Development:** Spring boot, RestAPI
- **Operating Systems & Tools:** Windows, macOS, Linux
- **Databases:** MySQL, MongoDB, Superbase
- **Software Development Concepts:** OOP, RESTful APIs, SDLC, Database Management
- **Software's & IDEs:** Visual Studio Code, Visual Studio, Eclipse, Apache NetBeans, Git, GitHub ,Pycharm, Android Studio
- **Technical skills:** Excel, Word, PowerPoint, Canva, Figma, Web flow

PROJECTS

- **Educational Empowerment System** [Github URL](#)

Educational Empowerment System developed for schools or small institutes. You can use this to maintain record's related to students, teachers, and other.

Technology Used - PHP (8.1), MySQL database, Bootstrap 5, JQuery, JavaScript, HTML, CSS
(Assist in front-end using HTML and PHP)

- **Client-Manager System** [Github URL](#)

Developed a Client managing system that check the client status about the projects and contracts.

Technology Used - Html, CSS, Python and SQL

- **Flexfit Gym Management System** [Github URL](#)

Full-stack gym management platform with 40+ modules covering memberships, POS and inventory, QR/biometric (ZKTeco) attendance, staff payroll, and real-time financial reporting across a 30+ table schema.

Technology Used - Html, CSS, PHP 8, MySQL, Bootstrap 5

EDUCATION

Bachelor of Computer Science with Honours
Saegis Campus

Nov 2023 - Nov 2027
Expected Graduation, Nov 2027

High School
T/Kinniya Central Collage

Jun 2019 - Nov 2021

CERTIFICATIONS

- Certificate in Ethical Hacking - MARSTECH
- Creating Compelling Reports - CISCO
- Introduction To Cyber Security -CISCO
- Frontend Developer (Basic) - HackerRank
- Go (Basic) - HackerRank

LANGUAGES

- Tamil - Native
- English - conversational
- Sinhala - basic

EXPERTISE

- Teamwork
- Leadership
- problem solving
- Communication
- Time management
